

Public Disclosure Protocol

BWXT NEC has a Public Disclosure Protocol with the objectives of providing information on the licensed activities to persons living near the site, fostering public awareness, and providing a forum for community members to discuss issues and concerns related to the licensed facilities.

The Public Disclosure Protocol describes how BWXT NEC communicates with the target audience. Based on this protocol, BWXT NEC commits to:

- Maintaining two-way communication channels with the target audience to understand and address comments, questions and concerns;
- Providing reporting on its website within 48 hours of unusual operational events with the potential for offsite consequences, or that would be of interest to the target audience;
- Providing timely reporting on its website of environmental events that trigger notification of the CNSC under Section 29 of the General Nuclear Safety and Control Regulations;
- Providing information to the target audience through BWXT NEC's website and/or other Public Information Program activities, about significant operational changes or expansions that require an environmental assessment or amendments to our facility licence;
- Posting environmental monitoring results (relevant sections of Annual Compliance Reports) on its website;
- Consulting with stakeholders to determine the type of information, and method for information sharing regarding this Public Disclosure Protocol;
- Posting this Public Disclosure Protocol on the BWXT NEC website.

Please visit nec.bwxt.com for copies of all public disclosures.

If you have a question, please contact Kathleen Augustin, Manager, CO Communications & Community Relations at questions@bwxt.com or 1.855.696.9588.
